

PATENT  
Atty. Dkt. No. WEAT/0409

**IN THE SPECIFICATION:**

Please add the following new paragraph after line 20 on page 2 of the filed application:

Figure 5 is a plan view of an embodiment of a rotary drill bit of the present invention.

Please add the following new paragraph after line 16 on page 5 of the filed application:

Figure 5 shows a bi-centered bit having radial rows of cutting elements 20 with the first set 22 trailing the second set 24 in the direction of rotation. However, it should be understood that the first set 22 can precede the second set 24 in the direction of rotation, or the two sets 22 and 24 of the cutting elements 20 can be arranged in a row or spaced randomly across the bit body, as desired.
